A partnership built on trust

# Equiom

AVIATION

Like our clients, we aim high. We are one of the world's leading aircraft registration and management businesses. Much of our success is due to the emphasis we place on managing your assets in the most tax efficient way, whether they are light jets,

helicopters or much bigger aircraft. Understanding international requirements, particularly when it comes to tax and VAT arrangements, can make a significant difference to your finances and your peace of mind.

## Early pioneers

We launched our niche aviation services to support the newly established Isle of Man aircraft register in 2007. It was the first of its kind in Europe and opened up significant opportunities for aircraft owners and operators keen to benefit from a well-regulated, dynamic and welcoming jurisdiction.

Today, our services are truly global. We work in a variety of international financial centres, and within a wide range of jurisdictions. Our choice of jurisdiction is driven by your needs and the specific business advantages the chosen location offers.

A partnership built on trust

Aviation is proof that given the will we have the capacity to achieve the impossible.

## We provide

- tailored tax planning structures designed to minimise liabilities
- comprehensive aircraft, crew management and administration
- appropriate management and financial reporting
- multi-jurisdictional registration services
- effective fiduciary solutions, including finance arrangements
- bespoke support services, from purchase, build and delivery through to operation and sale
- competitive leasing and insurance arrangements
- seamless 24/7 client services

## Focus on clients

We mean it when we say we are dedicated to client needs. We like to be flexible, ensuring we tailor our service to the particular requirements of owners, technical managers, operators and their advisers. We're happy to provide a fully comprehensive service or to fit in as part of an existing professional team. It's what suits you that matters.

## Business insight

Aviation is a highly complex industry which demands the highest standards of safety and security. Because we understand the challenges such a highly regulated and ever-changing industry presents, we've invested significantly in the skills and professionalism of our team.

You can be confident with this team to support you.
