PROPERTY

A partnership built on trust

Equiom

PROPERTY

The property market has always offered exciting challenges. Using our specialist expertise and technical knowledge, we enable our clients to take advantage of particular opportunities, whether they

are in commercial, industrial or prime residential property. Our involvement spans a rich mix of projects, from urban office blocks and bespoke student accommodation to factory sites and out-of-town shopping centres.

Good governance is key

Our focus is on effective corporate governance. Working with advisers, we help ensure you have the most appropriate corporate structure to enhance business potential. Most importantly, we provide professional and highly experienced directors and trustees. They contribute not only exacting governance standards,

but also key insight and wisdom. Knowledge gained over decades and across property sectors provides invaluable assurance.

A partnership built on trust

A potent combination of specialist insight and dynamism.

We provide

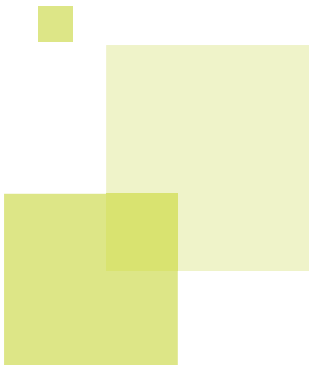

- efficient implementation of tailored tax planning structures e.g. property unit trust, closed end funds, limited company or partnerships
- high standards of corporate governance
- an excellent team of experienced and technically qualified staff
- cost effective administration
- timely and efficient VAT registration
- flexible, multi-jurisdictional services

Working with trusted intermediaries

We are proud that most of our business comes from personal recommendations. We think this reflects our flexible approach and commercial 'can do' attitude. Moving quickly to establish the most tax-efficient structure means our clients can capitalise on opportunities as they arise. Because we have a network of trusted partners, we can bring together other relevant advisers to cement relationships and progress business goals.

Putting clients first

Our independence gives us the edge when it comes to client service. We understand the need to be flexible, to put your needs first, and to deliver outstanding service in everything we do. We think strategically and act quickly. It's this philosophy which has driven our success and which we bring to all client relationships.
